

XMMatrixAffineTransformation2D

XMMatrixTransformation2D

XMMatrixRotationZ

```
graph LR; A[XMMatrixAffineTransformation2D] --> C[XMMatrixRotationZ]; B[XMMatrixTransformation2D] --> C;
```

The diagram illustrates a relationship between three classes. On the left, there are two white rectangular boxes with black borders. The top box is labeled 'XMMatrixAffineTransformation2D' and the bottom box is labeled 'XMMatrixTransformation2D'. On the right, there is a gray rectangular box with a black border labeled 'XMMatrixRotationZ'. Two blue arrows point from the right side of the two white boxes to the left side of the gray box, indicating that both 'XMMatrixAffineTransformation2D' and 'XMMatrixTransformation2D' inherit from or are related to 'XMMatrixRotationZ'.
