

Internal::SolveCubic

XMQuaternionToAxisAngle

XMScalarACos

```
graph LR; A[Internal::SolveCubic] --> C[XMScalarACos]; B[XMQuaternionToAxisAngle] --> C;
```

The diagram illustrates a dependency or call relationship. Two functions, 'Internal::SolveCubic' and 'XMQuaternionToAxisAngle', are shown on the left. Blue arrows point from each of these functions to a third function, 'XMScalarACos', which is located on the right. The 'XMScalarACos' box is shaded gray, while the others are white.
